

Vest Sizing Guide

Tipperary #1015 Eventer

Tipperary #1005 Racer Jockey

Fitting Instructions:

This vest requires measurements of the chest, waist and spine. Remember, the vest is designed to fit snugly. Reference the size chart to select the most appropriate size for your measurements. If your measurements fall between sizes, the best fit is usually with the smaller size. Custom sizes and made-to-measure vests are available by special order.

Chest - Measure at the widest point, to a snug fit. See diagram A.

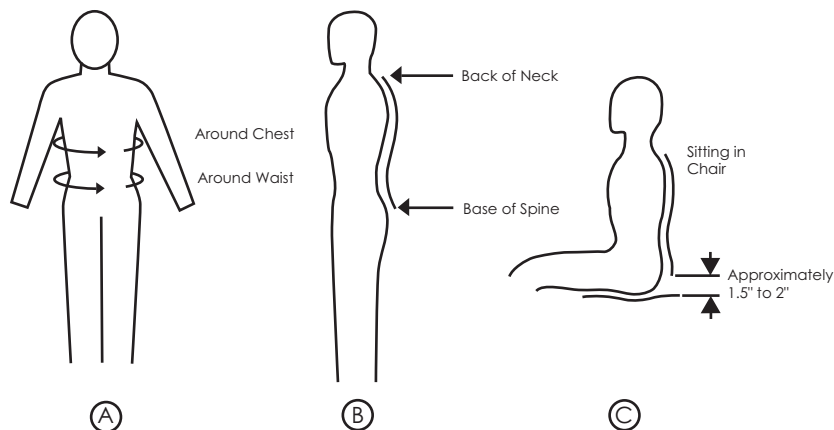

Waist - Measure at the natural waist. See diagram A.

Spine - Measure from the small bump at the back of the neck down to the tailbone, following the contours of the spine. This measurement is best achieved while seated in a chair or saddle. There should be about 1.5 to 2" clearance from the saddle or chair to avoid interference with the saddle while riding. See diagram B and C.

IMPORTANT: Due to the snug fit of this vest, it is recommended that the side laces be loosened before doing up the zipper. Doing this ensures the zipper is inserted correctly, and prolongs it's life. Follow this procedure each time you put on your vest.

Custom sized vests are available for an additional cost. These vests can be made to your exact measurements; please allow an additional 4-6 weeks for delivery.

If you need assistance with size selection, contact your local dealer or Phoenix Performance.
